+91-8668755563

Result driven Frontend Developer with experience creating visually appealing and highly functional web applications. Proficient in HTML, CSS, JavaScript, and modern frontend frameworks such as React and Vue.js. Skilled in translating design mockups and wireframes into responsive and interactive user interfaces. Continuously staying updated with emerging technologies and industry trends to drive innovation in frontend development

## Experience

### Corizo

Nov 2022 - Jan 2023

- During my two months of training and one month of internship with Corizo I applied my knowledge of HTML, CSS, JavaScript, and React.js and put it to use. This offered me the ideal experience and taught me how to take responsibility and work with a team.

### Oasis Infobytes

Dev 2022 - Jan 2023

- Using HTML, CSS, and JavaScript implemented three projects during my internship, including a Landing page, A Portfolio, and a Temperature Converter Page this internship gave me a lot of confidence.
- Sharing a link to my GitHub repository of all the three projects below  
[https://github.com/ayushlingayat/Landing\\_page](https://github.com/ayushlingayat/Landing_page)  
[https://github.com/ayushlingayat/Portfolio\\_Website](https://github.com/ayushlingayat/Portfolio_Website)  
[https://github.com/ayushlingayat/Temperature\\_Converter](https://github.com/ayushlingayat/Temperature_Converter)

### Suvidha Foundation

Nov 2022-Dec 2022

- As a Suvidha Foundation intern one of my group-based projects was creating a website using HTML, CSS and JavaScript for kids to learn how to code for an NGO.
- The website was created and built by my team and me, and it was hosted on servers provided by Go Daddy.
